In the midst of the program, a unique incident was injected by president A. E. Rowlands in which, by the use of a number of blocks and a Botarian wheel, he explained by example what the function of Rotarianism really is. Upon friendship and happiness he placed blocks bearing the legends of "investment" and "dividend" and capped the pyramid with the Rotarian wheel upon which was the emblem "He serves most, who serves best". The spokes bore legends corresponding to those on the block and as the Wheel revulved all were merged into each other. "That is the ideal of Rotarianism," explained the speaker.

The device, which hereafter will be used in initiating new members, was prepared by Fobert Ernklaner and was made by the El Pass Milling company, and finished by the McClintock Advertising company and the advertising company were voted thanks for their donation of material and islout.
